SOFTWARE REQUIREMENTS & FEATURE PROPOSAL

Royal Stationers

Cloud Business Management System

Invoicing · Multi-Location Stock · Imports · Accounts

Prepared for	**Royal Stationers** (Management)
Document type	Requirements review & feature selection
Version	1.0 – Draft for client review
Date	25 October 2026

Purpose: This document records our understanding of how Royal Stationers works today and lists every feature we propose for the new system. Please review it and mark each feature as **Yes**, **No** or **Later**. We will build exactly what you approve.

14 Optional Add-ons

15 Questions for Royal Stationers

16 Next Steps & Approval

1 How to Review This Document

Every feature in sections 5 to 13 has a reference number, such as **I-04**, and a decision column. For each feature, please:

- Tick **Yes** if you need it in the new system.
- Tick **No** if you do not need it.
- Tick **Later** if it is useful but can wait for a later phase.
- Write any change or extra detail in the **Notes** column.

Each feature also has a status tag:

EXISTING Already in your current software. We will keep it. IMPROVED Exists today, but will work better.

NEW Not in your current software. TO CONFIRM We are not sure you use this today. Please confirm.

> If a feature you use today is missing from this list, please write it on the last page. Nothing you rely on today should be left out of the new system.

2 Our Understanding of Your Business

Royal Stationers is a **stationery wholesaler and distributor**. It supplies shops across Pakistan, including D.G. Khan, Multan, Faisalabad, Lahore and Rajanpur. Large quantities are dispatched to these cities through goods transport (bilty).

Imports from China

Goods are ordered from suppliers in Yiwu and arrive by container. Each container has a packing list with cartons, quantity per carton, CBM and weights. Documents and duty are handled before the goods arrive.

Multiple storage locations

Stock is kept in several places: 2nd Floor, 3rd Floor, 4th Floor, First Floor, Bahl Store, Basement and Racks. Each location has its own stock.

Carton + loose quantities

Items are counted in cartons plus loose pieces. Example: Tape CY1262 has 36 pcs per carton, so 51 cartons = 1,836 pcs.

Credit clients and price history

Most clients buy on account. Staff must see a client's previous balance, and the rate charged on the last sale of an item, before setting a price.

Main business flow

Import / Purchase Container or local supplier › **On the Way** Goods in transit › **Stock In** Received into a store › **Transfer** Between floors / stores › **Sale Invoice** Packing, bilty, dispatch › **Receipt** Payment from client › **Ledger & Reports** Balances, stock

3 Your Current Software: What It Does Today

We studied screenshots of the current **"Royal Stationers : MIS"** desktop software. It has the following areas:

Area	What it does
Products Information	Product ID, code, name, company, brand, category, unit (Box, Pc, Dozen, Gurus, Carton, Pkt, Roll, Set), carton qty, inner qty, CBM, reorder level, sale price with min/max limits. Search by company, category or name.
Sale Invoice	Invoice no., date, transaction type, bilty no., payment mode, delivery mode, client with previous balance and balance after this bill. Products are entered in cartons + loose with a store location. The screen shows the last sales to this client and stock in each location. Supports discount and freight, and prints in Normal, Detail and Packing formats.
Product Ledger	Movement of one product, filtered by client, store, stock in, stock out, purchase, sale and date range. Can show quantities in cartons, and shows "On the Way" stock.
Stock	Stock In (opening stock per location), Stock Transfer between locations, Current Stock (C. Stock) and Store Stock (S. Stock).
Accounts	Receipt, Payment, Ledger, Client Accounts, Business summary.
Reports	Product Stock Ledger (date, bill, party, in, out, running balance) and Product Sale-to-Client history.
Users	Separate logins. Each user sees different menu options, and a working day is shown on screen.

4 Problems We Found in the Current Software

Observation	Impact on the business
Stock can go negative	Some locations show −58, −48 and −19. Stock figures cannot be fully trusted, and items may be sold that are not physically there.
Desktop only	Works only on the shop computer. The owner cannot check sales, stock or balances from home or a phone.
Imports tracked on paper	Container packing lists, document status, duty and landed cost are kept on paper. Cost per item and true profit are hard to know.
Opening stock described by person name	Entries such as "Basement Azeem" or "racks abdullah" mix people with locations, which makes audits difficult.
Fractional cartons in reports	Values such as 0.82 carton are hard to read. Showing "41 boxes" or "0 ctn + 41" is clearer.
No dashboard or alerts	No quick view of today's sales, money to collect or low stock.
Backup and data safety	Data sits on a single machine. A hard-disk failure or virus could lose years of records.

5 Proposed Features: Product Management

Ref	Feature	Details	Status	Your Decision	Notes
P-01	**Product master**	Code, name, company, brand, category. New company, brand or category can be added directly from the product screen.	EXISTING	☐ Yes ☐ No ☐ Later	
P-02	**Units of measure**	Box, Pc, Dozen, Gurus (Gross), Carton, Pkt, Roll, Set. More can be added.	EXISTING	☐ Yes ☐ No ☐ Later	
P-03	**Carton & inner pack**	Carton qty and inner qty per product. Quantities are shown automatically as cartons + loose.	EXISTING	☐ Yes ☐ No ☐ Later	
P-04	**CBM & carton weight**	CBM, gross weight and net weight per carton, used in import calculations.	IMPROVED	☐ Yes ☐ No ☐ Later	
P-05	**Sale price with Min / Max**	Standard sale price plus minimum and maximum allowed rates.	EXISTING	☐ Yes ☐ No ☐ Later	
P-06	**Reorder level**	Minimum stock level per product, with an automatic low-stock alert.	IMPROVED	☐ Yes ☐ No ☐ Later	
P-07	**Product pictures**	Attach one or more photos to each product, shown during search and on the invoice screen.	NEW	☐ Yes ☐ No ☐ Later	
P-08	**Barcode / QR**	Print barcode labels and scan products at billing and stock taking.	NEW	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
P-09	**Multiple price lists**	Separate rates for wholesale, retail and special clients.	NEW	☐ Yes ☐ No ☐ Later	
P-10	**Excel import / bulk update**	Add products or change prices for many items at once from an Excel sheet.	NEW	☐ Yes ☐ No ☐ Later	
P-11	**Cost price & margin**	Purchase or landed cost and profit margin per product, visible to the owner only.	NEW	☐ Yes ☐ No ☐ Later	

6 Proposed Features: Stores & Stock

Ref	Feature	Details	Status	Your Decision	Notes
S-01	**Multiple store locations**	2nd Floor, 3rd Floor, 4th Floor, First Floor, Bahl Store, Basement, Racks. You can add or rename locations.	EXISTING	☐ Yes ☐ No ☐ Later	
S-02	**Location-wise stock**	Live stock of every product in each location, in cartons + loose.	EXISTING	☐ Yes ☐ No ☐ Later	
S-03	**Stock In (opening / receiving)**	Add stock to a chosen location. The person responsible is recorded separately from the location.	IMPROVED	☐ Yes ☐ No ☐ Later	
S-04	**Stock transfer**	Move stock between locations, with a printable transfer slip.	EXISTING	☐ Yes ☐ No ☐ Later	
S-05	**Stock adjustment**	Record damage, shortage or excess with a reason, so it is not mixed with sales.	NEW	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
S-06	**Negative stock control**	Block or warn when a sale or transfer exceeds available stock. The owner chooses which.	NEW	☐ Yes ☐ No ☐ Later	
S-07	**Physical stock count**	Count stock per location, compare it with system stock and post the differences.	NEW	☐ Yes ☐ No ☐ Later	
S-08	**On the Way stock**	Goods ordered or in transit are shown separately from stock in hand.	EXISTING	☐ Yes ☐ No ☐ Later	
S-09	**Automatic store selection**	On a sale, the system suggests the location to take stock from.	EXISTING	☐ Yes ☐ No ☐ Later	

7 Proposed Features: Sale Invoice

Ref	Feature	Details	Status	Your Decision	Notes
I-01	**Invoice header**	Invoice no., date, transaction type, bilty no., payment mode (Cash/Credit), delivery mode.	EXISTING	☐ Yes ☐ No ☐ Later	
I-02	**Client balance on invoice**	Previous balance and balance after this bill, shown on screen and on print.	EXISTING	☐ Yes ☐ No ☐ Later	
I-03	**Fast product search**	Search by name or code while typing, showing price, min price and stock.	EXISTING	☐ Yes ☐ No ☐ Later	
I-04	**Client price history**	Last sales of this product to this client: date, invoice, rate and quantity.	EXISTING	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
I-05	**Location per line**	See stock in each location and choose where each item is taken from.	EXISTING	☐ Yes ☐ No ☐ Later	
I-06	**Carton + loose entry**	Enter cartons and loose pieces. Total quantity and amount are calculated automatically.	EXISTING	☐ Yes ☐ No ☐ Later	
I-07	**Discount & freight**	Bill discount (amount or %), freight charges, net total and remarks.	EXISTING	☐ Yes ☐ No ☐ Later	
I-08	**Sale return**	Return against an invoice. Stock goes back to the chosen location and the client account is credited.	EXISTING	☐ Yes ☐ No ☐ Later	
I-09	**Print formats**	Normal, Detail and Packing slip, on A4 or other paper sizes.	EXISTING	☐ Yes ☐ No ☐ Later	
I-10	**Find & edit invoices**	Open by invoice no., move to next or previous, and edit with a record of who changed what.	IMPROVED	☐ Yes ☐ No ☐ Later	
I-11	**Below-minimum-price control**	Warn, or ask for owner approval, when a rate is below the minimum price.	NEW	☐ Yes ☐ No ☐ Later	
I-12	**WhatsApp / PDF invoice**	Send the invoice to the client as a PDF on WhatsApp in one click.	NEW	☐ Yes ☐ No ☐ Later	
I-13	**Quotation / estimate**	Make a quotation and convert it into an invoice later.	NEW	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
I-14	**Sales order / booking**	Book an order now, then pack and invoice it when goods are ready.	NEW	☐ Yes ☐ No ☐ Later	
I-15	**Counter receipt printer**	Small 80 mm thermal receipt for walk-in counter customers.	NEW	☐ Yes ☐ No ☐ Later	
I-16	**Hold / multiple open bills**	Keep several bills open at once and switch between customers.	NEW	☐ Yes ☐ No ☐ Later	

8 Proposed Features: Purchase & China Imports

> This module replaces the paper container sheets, such as the Yiwu Ruya Trade packing list for container MSKU0221809. It lets you know the **real landed cost** of every item.

Ref	Feature	Details	Status	Your Decision	Notes
PI-01	**Local purchase invoice**	Purchase from local suppliers into a chosen location, updating stock and the supplier account.	EXISTING	☐ Yes ☐ No ☐ Later	
PI-02	**Purchase return**	Return goods to a supplier.	TO CONFIRM	☐ Yes ☐ No ☐ Later	
PI-03	**Container record**	Container no., shipper, consignee, invoice no., R. no., date, and container price (USD/RMB).	NEW	☐ Yes ☐ No ☐ Later	
PI-04	**Packing list entry / Excel import**	Bill no., item, CTN, qty/CTN, CBM, total CBM, gross and net weight. Items are matched to your products.	NEW	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
PI-05	**Container status tracking**	Ordered → Shipped → Documents Received → Duty Paid → Arrived, with a date for each step.	NEW	☐ Yes ☐ No ☐ Later	
PI-06	**Landed cost calculation**	Item cost + exchange rate + duty + freight + clearing, shared across items by CBM, value or quantity.	NEW	☐ Yes ☐ No ☐ Later	
PI-07	**On the Way → Stock In**	Container items appear as "On the Way" automatically. On arrival, receive them into stores in one step.	NEW	☐ Yes ☐ No ☐ Later	
PI-08	**Suggested sale price**	Suggest sale and minimum prices from landed cost plus your margin.	NEW	☐ Yes ☐ No ☐ Later	

9 Proposed Features: Clients, Suppliers & Accounts

Ref	Feature	Details	Status	Your Decision	Notes
A-01	**Client master**	Code, name, city, phone numbers, address, opening balance.	EXISTING	☐ Yes ☐ No ☐ Later	
A-02	**Supplier master**	Local and foreign suppliers, with opening balance.	EXISTING	☐ Yes ☐ No ☐ Later	
A-03	**Receipts**	Money received from clients by cash, bank or cheque.	EXISTING	☐ Yes ☐ No ☐ Later	
A-04	**Payments**	Money paid to suppliers and others.	EXISTING	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
A-05	**Client & supplier ledger**	Full account statement with running balance, for any date range.	EXISTING	☐ Yes ☐ No ☐ Later	
A-06	**Credit limit**	Maximum credit per client, with a warning or block when it is exceeded.	NEW	☐ Yes ☐ No ☐ Later	
A-07	**Receivable aging**	Money due from clients, split by age (0–30, 31–60, 61–90, 90+ days).	NEW	☐ Yes ☐ No ☐ Later	
A-08	**Cheque register**	Post-dated cheques with due-date reminders and status (cleared or bounced).	NEW	☐ Yes ☐ No ☐ Later	
A-09	**Expenses & cash book**	Daily shop expenses, opening and closing cash, bank accounts.	NEW	☐ Yes ☐ No ☐ Later	
A-10	**Statement on WhatsApp**	Send a client's ledger or balance reminder on WhatsApp.	NEW	☐ Yes ☐ No ☐ Later	

10 Proposed Features: Reports

Every report can be filtered by date, product, client, store or company, and exported to PDF or Excel.

Ref	Feature	Details	Status	Your Decision	Notes
R-01	**Product stock ledger**	In, out and running balance per product, in pieces or as cartons + loose.	IMPROVED	☐ Yes ☐ No ☐ Later	
R-02	**Product ledger with filters**	By client, store, stock in/out, purchase, sale and date range.	EXISTING	☐ Yes ☐ No ☐ Later	
R-03	**Product sale to client**	All sales of one product to one client, with cartons, loose, quantity and rate.	EXISTING	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
R-04	**Current stock report**	Stock by location, company or category, with stock value.	IMPROVED	☐ Yes ☐ No ☐ Later	
R-05	**Sales summary**	Daily, monthly and yearly sales by client, product, city or user.	TO CONFIRM	☐ Yes ☐ No ☐ Later	
R-06	**Low stock / reorder**	Items below their reorder level, to help plan the next container.	NEW	☐ Yes ☐ No ☐ Later	
R-07	**Profit report**	Profit by invoice, product, client and month, based on landed cost.	NEW	☐ Yes ☐ No ☐ Later	
R-08	**Slow-moving / dead stock**	Items not sold in the last 30, 60 or 90 days.	NEW	☐ Yes ☐ No ☐ Later	
R-09	**Top clients & products**	Best clients and best-selling products for any period.	NEW	☐ Yes ☐ No ☐ Later	
R-10	**Container report**	Per container: items, cartons, CBM, landed cost and how much has been sold.	NEW	☐ Yes ☐ No ☐ Later	

11 Proposed Features: Users, Security & Backup

Ref	Feature	Details	Status	Your Decision	Notes
SEC-01	**User logins**	Separate username and password for each staff member.	EXISTING	☐ Yes ☐ No ☐ Later	
SEC-02	**Role-based permissions**	Choose which screens each user can see, add, edit or delete.	IMPROVED	☐ Yes ☐ No ☐ Later	

Ref	Feature	Details	Status	Your Decision	Notes
SEC-03	**Sensitive data control**	Hide cost price and profit, and stop editing of old invoices, for staff users.	NEW	☐ Yes ☐ No ☐ Later	
SEC-04	**Activity log**	Who created, changed or deleted any invoice, payment or stock entry, and when.	NEW	☐ Yes ☐ No ☐ Later	
SEC-05	**Working day / day closing**	Set the working date and close the day so earlier entries are locked.	EXISTING	☐ Yes ☐ No ☐ Later	
SEC-06	**Automatic cloud backup**	Data is backed up every day automatically. Nothing is lost if a computer fails.	NEW	☐ Yes ☐ No ☐ Later	
SEC-07	**Access from anywhere**	Use the system from any computer, tablet or mobile browser, with secure login.	NEW	☐ Yes ☐ No ☐ Later	

12 Proposed Features: Dashboard & Alerts

Ref	Feature	Details	Status	Your Decision	Notes
D-01	**Owner dashboard**	Today's sales, receipts, cash in hand and total receivable, on one screen.	NEW	☐ Yes ☐ No ☐ Later	
D-02	**Sales trend charts**	Sales by day and month, compared with the previous period.	NEW	☐ Yes ☐ No ☐ Later	
D-03	**Alerts**	Low stock, cheques due, credit limit crossed, container arriving.	NEW	☐ Yes ☐ No ☐ Later	

13 Data Transfer, Setup & Training

Ref	Feature	Details	Status	Your Decision	Notes
M-01	**Master data transfer**	Move products, clients, suppliers, opening balances and current stock from the old software.	NEW	☐ Yes ☐ No ☐ Later	
M-02	**History transfer**	Move past invoices, so client price history (I-04) works from day one.	NEW	☐ Yes ☐ No ☐ Later	
M-03	**Parallel run**	Use the old and new systems together for a short period to compare results.	NEW	☐ Yes ☐ No ☐ Later	
M-04	**Staff training**	On-site training for staff, plus a simple user guide.	NEW	☐ Yes ☐ No ☐ Later	

14 Optional Add-ons

These are not part of the core system. They can be added at any time.

Ref	Add-on	Details	Your Decision	Notes
X-01	**Urdu language screens**	Menus and prints in Urdu for staff who prefer it.	☐ Yes ☐ No ☐ Later	
X-02	**Salesman order app**	Salesmen book orders from shops on their mobile phones.	☐ Yes ☐ No ☐ Later	
X-03	**Client portal**	Clients log in to see their own ledger, invoices and product catalogue.	☐ Yes ☐ No ☐ Later	
X-04	**SMS alerts**	Automatic SMS to clients on invoice or payment.	☐ Yes ☐ No ☐ Later	
X-05	**Multiple branches**	Run more than one shop or warehouse under one account.	☐ Yes ☐ No ☐ Later	
X-06	**FBR / sales-tax invoicing**	Tax invoices and integration with FBR, if required.	☐ Yes ☐ No ☐ Later	

15 Questions for Royal Stationers

Your answers help us plan the system correctly.

#	Question	Your answer
1	Can you give us a copy or backup of the current software's database, so we can transfer your data?	
2	How many staff will use the system, and how many at the same time?	
3	Do you also sell retail to walk-in customers, or only wholesale?	
4	How do you receive payments today: cash only, or also bank transfer and cheques?	
5	How do you calculate the cost of imported items today (by CBM, by value, by quantity)?	
6	Which printers do you use for invoices and packing slips (A4, thermal, dot-matrix)?	
7	Is internet at the shop reliable? Do you need the system to work during internet outages?	
8	Do you need sales-tax / FBR invoices?	
9	Do salesmen take orders outside the shop?	
10	Which reports do you print or check every day that are not listed in this document?	

16 Next Steps & Approval

Step	Activity	Description
1	**Your review**	Mark Yes / No / Later for each feature, answer the questions and add any missing items.
2	**Final scope & quotation**	We confirm the approved features and share the cost and timeline.
3	**Phase 1: Core system**	Products, stores & stock, sale invoice, clients & accounts, users, data transfer.
4	**Phase 2: Purchase & imports**	Purchases, container tracking, landed cost, full reports.
5	**Phase 3: Extras**	Dashboard, WhatsApp sharing, alerts and any approved add-ons.
6	**Testing, training & go-live**	Parallel run with the old software, staff training, then full switch-over.
